SUMMARY

Final-year MCA student (REVA University) seeking a Data Engineer Intern role. Hands-on with Python, SQL and PostgreSQL; built data ingestion pipelines, relational schemas and REST APIs across three projects. Strong in data modeling, data integrity and clear documentation; fast learner eager to build on AWS and big data stacks.

EDUCATION

MCA, REVA University, Bengaluru — Final year | CGPA 7.6

B.Sc. Chemistry, Darjeeling Government College — CGPA 7.1

TECHNICAL SKILLS

Languages: Python, SQL, Java

Databases & Data: PostgreSQL (relational schema design, ER modeling), ChromaDB (vector store), data ingestion & transformation, data validation

Frameworks & Tools: FastAPI, Spring, LangGraph, Pandas, Git, REST APIs, JWT / SAML / OIDC authentication

Practices: Agile workflow, code reviews, testing, technical documentation; DSA practice on LeetCode / HackerRank

PROJECTS

AquaEstate: Smart Water Management System — FastAPI | PostgreSQL | React Native

- Designed the PostgreSQL relational schema and ER model for facilities, residents and water-usage records, documented with architecture and ER diagrams.
- Built FastAPI backend with JWT authentication and role-based access (Super Admin, Facility Admin, Resident) over structured operational data.
- Implemented multi-format data export so non-technical users can self-serve reports from stored records.

Tax AI Assistant: RAG-based Indian Taxation Chatbot — Python | Gemini API | LangGraph | ChromaDB

- Built an ingestion pipeline that processes large taxation PDFs into a ChromaDB knowledge base for retrieval-based question answering.
- Orchestrated retrieval and response flow with LangGraph; worked through document parsing and rendering quality issues in source data.

Arecanut Ripeness Classification — Python | YOLOv8 | MobileNetV2

- Trained and evaluated YOLOv8 and MobileNetV2 models on an image dataset, reaching 93.8% mAP.
- Prepared and validated the dataset and compared model performance to select the best approach.

EXPERIENCE

Trainee Intern, eMudhra — 3 months

- Implemented role-based features and worked on SAML / OIDC authentication flows through the SecurePass product.
- Worked within an agile team, following source control, code review and testing practices.

Mobile App Developer Intern, Dalm Solutions Pvt. Ltd. — 4 months

- Developed mobile application features and collaborated with the team in a fast-paced delivery environment.
